

Healthcare Master Data

Coding, Fee and Regulatory Data

IT'S NOT JUST DATA, IT'S COMPLIANCE

In today's complex healthcare environment, having access to accurate and up-to-date data is crucial to success. It's more than bits and bytes. You need a partner who can guide you in how data is best used to drive value and support compliance.

Context can help maximize productivity and compliance with the latest coding, fee, and regulatory data. Our 100+ data products integrate easily with your existing IT platforms. We also provide custom data products to specification.

Our data products come with Context's renowned customer service. We also offer professional guidance on coding, rules usage and compliance. This is why Context has been the leading choice for 1,000 payers, providers, and software developers for over 20 years.

ACCURATE, TIMELY AND RELEVANT

Compliance starts with accuracy in the master data used to run a healthcare organization. Our relentless focus on accuracy ensures improved decision making. Occasionally new customers contact us for "missing codes". What they find is that the codes they have been using with other vendors had expired or been superseded years before!

YOUR ONE-STOP SHOP FOR HEALTHCARE DATA

Context provides a broad spectrum of healthcare industry data across 100+ products.

A sample of our data product categories includes:

- Procedural & diagnosis codes
- Usual, Customary & Reasonable Fees (UCR)
- Linkage libraries & relational databases (including 29 physician specialties)
- Medicare data
- Fee data
- Outpatient
- HCPCS
- Dental
- Anesthesia
- Client customized

Context's UCR and Medicare pricing data is also available real-time in the cloud through a web-service.
