The Latest Three COVID-19 Vaccine Codes from the AMA

On February 1, 2022, the AMA released three more specific COVID-19 CPT Vaccine codes for use in reporting vaccination with Pfizer's latest toxoid of patients between six months and five years of age. Although these codes have been released, they will not be effective until the date an EUA is granted by the FDA.

Impact of Policy Adjustments on Telehealth Fraud

In May 2021, MedPac raised concerns to Congress regarding the 200 healthcare policy changes in response to the COVID-19 public health emergency. MedPac warned about the detrimental impact in the realm of fraud on healthcare: "...not all actors in the healthcare system are well-intentioned."

Audits of Telehealth Services During COVID-19

Relaxed telehealth restrictions is a necessary step to limit potential COVID-19 exposure in physician offices in the emergency period. With this change, unfortunately, the US Justice Department estimates telehealth-related fraud has expanded significantly since early 2020 - approximated at 4.5 billion dollars.

PRODUCT UPDATES

New Rules Added to Payment Integrity Solution in Q4 2021

Context 4 Healthcare's payment integrity solutions go through a weekly rule update process. During this process, we may update existing rules or we may add new rules. By performing the update weekly, Context's customers will always have access to the latest rule logic for safeguarding their health plan's assets.

While the updates occur weekly, Context will begin issuing this Product Announcement on a quarterly basis to make customers aware of any new rules that were added in the previous quarter.

If you have any questions about these rules, please contact Context's Client Success team by calling us at 800-783-3378, sending us an email at ClientSuccessTeam@Context4.com, or clicking on the button below.
